LIBRARY SUMMER PROGRAMS

For an out-of-this-world summer, head to a library! There are 800+ programs, from story times to stargazing, all around York County Libraries. We'll have live animals (and BUGS!), book characters, science and escape rooms and FUN! Check out the **2019 SummerQuest Program Schedule** to get all the details.

Here are just a few of the must-see events happening:

Jesse Rothacker – Forgotten Friend Reptile Sanctuary
All Ages

Come meet real snakes, turtles, lizards, geckos, and other reptile friends with Jesse Rothacker! Forgotten Friend Reptile Sanctuary teaches people of all ages about their scaly neighbors. Learn about which reptiles make good pets, and which do not. Find out that snakes aren't slimy—by holding one! A great show for any animal lover.

All Ages

Ryan "the BugMan" Bridge is always a hit! He shows how spiders and insects help the world—and don't really want to bother you! Interact with live bugs like tarantulas and moths, and see his huge collection of preserved insects. Fascinating learning for all!

Story Time with Miss Lisa
All Ages

Join Miss Lisa for a fun story time (and craft!) as we read *Star in a Jar* by Sam Hay. A star gets lost, and the little boy who finds it wants to keep it forever. But the sky misses its missing star. How will the boy and his sister get the star back home? Come find out!

**LEAP into Science
with Tara Tolton
Grades K-4**

Kids become scientists in an innovative, dynamic, and fun-filled hour at the library!

**Tacky the Penguin
All Ages**

You've read about Tacky the Penguin in books—now meet him in person! Tacky is a penguin who likes Hawaiian shirts and being his own kind of penguin, no matter how odd his friends think he is. He shows how great that is! Read a story and take a picture with him!

**Planetarium and
Observatory Events
All Ages**

*July 13 **Planetarium:**
11am, 12:30pm, 2pm (no telescope
drawings)*

*July 13 **Observatory:**
8pm-10pm (telescope drawing at
this event)*

Join us all summer long with the York County Astronomical Society as they host live observations of the night sky and present great shows at the planetarium! Learn about the sky above and the planets around us at these all-ages events.

The **Planetarium** is right at the end of E 6th Ave in York, and is part of the York Learning Center. The **Observatory** is located in John Rudy County Park. There will be seven chances throughout the summer to win a **FREE** telescope! (You must be present to win.) There's a special how-to clinic for winners so they know how to use their new telescopes. Visit the **SummerQuest** website for details.
